

INTRODUCTION

- Certification
- Contributions
- Abbreviations
- Glossary of Terms
- Guidelines for Making a Submission
- Executive Summary

PART A PROJECT BACKGROUND

1 Introduction 1-1

- 1.1 Background to the Project 1-1
- 1.2 The Proponent 1-4
- 1.3 Environmental Impact Assessment Process 1-9
- 1.4 Related Investigations 1-11
- 1.5 Document Structure 1-11

2 Location and Context..... 2-1

- 2.1 Site Location and History 2-1
- 2.2 The Groundwater Issue 2-4
- 2.3 Proposed Groundwater Containment and Treatment Activities 2-9
- 2.4 The Planning Context 2-11

PART B THE PROJECT

3 Project Need and Objectives 3-1

- 3.1 Strategic Context 3-1
- 3.2 Project Need 3-1
- 3.3 Objectives 3-12

4 Alternatives Review and Selection of Preferred Option 4-1

- 4.1 Introduction 4-1
- 4.2 International Treaties Potentially Affecting Strategy Selection 4-2
- 4.3 GTP Location 4-5
- 4.4 Key Technology Selection Criteria 4-7
- 4.5 Initial Assessment of Treatment Processes 4-7

- 4.6 Independent Assessment of Treatment Alternatives 4-10
- 4.7 Development of the Preferred Option 4-11
- 4.8 Treated Groundwater Management 4-15
- 4.9 'Do Nothing' Option 4-16
- 4.10 Conclusion 4-16

5 Project Description 5-1

- 5.1 Introduction 5-1
- 5.2 Overview of BGC Project 5-1
- 5.3 Existing and Proposed Infrastructure 5-6
- 5.4 Overview of Groundwater Treatment Plant 5-22
- 5.5 Groundwater Treatment Plant Process 5-25
- 5.6 Materials Storage and Handling 5-36
- 5.7 Site Utilities and Ancillary Facilities 5-40
- 5.8 GTP Operation and Control 5-43
- 5.9 Construction 5-47
- 5.10 Decommissioning 5-51

PART C STATUTORY AND STRATEGIC PLANNING

6 Statutory Planning 6-1

- 6.1 Scope 6-1
- 6.2 Commonwealth Matters 6-4
- 6.3 NSW Matters 6-6
- 6.4 Regional Matters 6-12
- 6.5 Local Matters 6-12
- 6.6 Draft Development Control Plans 6-20
- 6.7 Conclusion 6-21

PART D ISSUES IDENTIFICATION AND PRIORITISATION

7 Government Consultation 7-1

- 7.1 Introduction 7-1
- 7.2 Formal Procedures for Consultation 7-1
- 7.3 Consultation with Statutory Authorities 7-10

Contents

8	Community Involvement.....	8-1	13	Water Quality and Wastewater.....	13-1
8.1	Overview	8-1	13.1	Introduction	13-1
8.2	BGC Project Community Consultation Program	8-3	13.2	Existing Environment	13-1
8.3	Issues Raised by the Community	8-11	13.3	Construction Water Management	13-6
8.4	Ongoing Consultation and Community Involvement	8-35	13.4	Operational Water Management	13-7
9	Prioritisation of Issues.....	9-1	13.5	Summary of Mitigation Measures	13-15
9.1	Issues Identification	9-1	13.6	Conclusion	13-16
9.2	Prioritisation of Issues	9-3	14	Surface Water & Hydrology	14-1
PART E ENVIRONMENTAL IMPACT ASSESSMENT			14.1	Introduction	14-1
10	Land Use	10-1	14.2	Existing Environment	14-1
10.1	Introduction	10-1	14.3	Hydrology Assessment	14-5
10.2	Overview	10-1	14.4	Surface Water Management	14-7
10.3	Land Use Trends	10-8	14.5	Summary of Mitigation Measures	14-14
10.4	Assessment of Impacts During Construction	10-8	14.6	Conclusion	14-15
10.5	Assessment of Impacts During Operation	10-9	15	Waste Management.....	15-1
10.6	Mitigation Measures	10-10	15.1	Introduction	15-1
10.7	Conclusion	10-10	15.2	Existing Environment	15-1
11	Geology, Soils and Geotechnical	11-1	15.3	Waste Generation	15-2
11.1	Introduction	11-1	15.4	Methods Of Waste Management and Disposal	15-4
11.2	Methodology	11-1	15.5	Mitigation Measures	15-8
11.3	Existing Environment	11-3	15.6	Conclusion	15-9
11.4	Assessment of Impacts During Construction	11-11	16	Traffic and Transportation.....	16-1
11.5	Assessment of Impacts During Operation	11-13	16.1	Introduction	16-1
11.6	Mitigation Measures	11-14	16.2	Existing Road Network and Traffic Conditions	16-1
11.7	Conclusion	11-18	16.3	Traffic Impacts	16-8
12	Hydrogeology	12-1	16.4	Mitigation Measures	16-15
12.1	Introduction	12-1	16.5	Conclusion	16-17
12.2	Hydrogeological Setting	12-1	17	Noise.....	17-1
12.3	Groundwater Extraction Modelling	12-11	17.1	Introduction	17-1
12.4	Modelling of Groundwater Contamination Variation	12-24	17.2	Existing Environment	17-1
12.5	Assessment of GTP Construction Impacts	12-27	17.3	Noise Assessment Methodology	17-2
12.6	Assessment of Operation Impacts	12-28	17.4	Construction Noise Assessment	17-3
12.7	Mitigation and Management Measures	12-34	17.5	Operation Noise Assessment	17-6
12.8	Conclusion	12-38	17.6	Mitigation and Management Measures	17-8
			17.7	Conclusions	17-8

18	Energy & Greenhouse	18-1	23.4 Hazard Identification	23-5	
	18.1 Background to the Project	18-1	23.5 Summary of Consequence Analysis	23-13	
	18.2 Energy Management and Conservation	18-1	23.6 Consequence Analysis	23-15	
	18.3 Greenhouse Gas Emissions	18-4	23.7 Risk Analysis	23-22	
	18.4 Mitigation Measures	18-6	23.8 Risk to the Biophysical Environment	23-26	
	18.5 Conclusion	18-7	23.9 Conclusions	23-26	
19	Landscape and Visual	19-1	24	Health Risk Assessment.....	24-1
	19.1 Introduction	19-1	24.1 Introduction	24-1	
	19.2 Site Description	19-1	24.2 Approach to Health Risk Assessment	24-2	
	19.3 GTP Visual Assessment	19-3	24.3 Issue Identification	24-3	
	19.4 Visibility	19-3	24.4 Exposure Assessment	24-5	
	19.5 Additional Visual Assessment	19-11	24.5 Toxicity Assessment	24-8	
	19.6 Conclusion	19-11	24.6 Risk Characterisation	24-10	
20	Flora and Fauna.....	20-1	24.7 Summary of Management Measures	24-18	
	20.1 Introduction	20-1	24.8 Conclusions	24-18	
	20.2 The Study Area	20-1	25	Socio-Economic Assessment.....	25-1
	20.3 Methodology	20-3	25.1 Introduction	25-1	
	20.4 Existing Environment	20-4	25.2 Existing Socio-Economic Environment	25-1	
	20.5 Terrestrial Flora	20-7	25.3 Project Components	25-3	
	20.6 Fauna	20-9	25.4 Assessment of Costs/Benefits	25-4	
	20.7 Aquatic Ecology	20-16	25.5 Conclusion	25-5	
	20.8 Assessment of Impacts	20-18	26	Cumulative Impacts	26-1
	20.9 Management and Mitigation Measures	20-25	26.1 Introduction	26-1	
	20.10 Conclusion	20-26	26.2 Existing Developments	26-1	
21	Archaeology and Heritage.....	21-1	26.3 Proposed Developments	26-4	
	21.1 Introduction	21-1	26.4 Conclusion	26-7	
	21.2 The Existing Environment	21-1	PART F ENVIRONMENTAL MONITORING AND MANAGEMENT		
	21.3 Assessment of Impacts	21-2	27	Compilation of Mitigation Measures	27-1
	21.4 Management and Mitigation Measures	21-2	27.1 Introduction	27-1	
	21.5 Conclusion	21-4	28	Environmental Monitoring and Management.....	28-1
22	Air Quality Assessment.....	22-1	28.1 Environmental Management Principles	28-1	
	22.1 Introduction	22-1	28.2 Environmental Management Plan	28-1	
	22.2 Assessment Criteria	22-1	28.3 Construction Environmental Management Plan	28-4	
	22.3 Existing Environment	22-8			
	22.4 Construction Assessment	22-14			
	22.5 Operation Assessment	22-16			
	22.6 Conclusions	22-39			
23	Preliminary Hazard Analysis	23-1			
	23.1 Introduction	23-1			
	23.2 Objectives of the Preliminary Hazard Analysis	23-3			
	23.3 Preliminary Hazard Analysis Methodology	23-3			

Contents

28.4	Operational Environmental Management Plan	28-5
28.5	Environmental Management System	28-6
28.6	Environmental Monitoring	28-6
28.7	Environmental Reporting	28-10
28.8	Environmental Audit	28-11
28.9	Decommissioning	28-11
28.10	Emergency Response Plan	28-11

PART G JUSTIFICATION

29	Ecologically Sustainable Development.....	29-1
29.1	Introduction	29-1
29.2	Ecologically Sustainable Development	29-1
29.3	Application of ESD to Project Design and Development	29-2
29.4	Conclusion	29-7
30	Justification and Conclusion	30-1
30.1	Introduction	30-1
30.2	The Proposal	30-1
30.3	Ability to Meet the Needs and Objectives for the Project	30-2
30.4	Environmental Benefits and Impacts	30-3
30.5	Socio-Economic Benefits and Impacts	30-5
30.6	Consistency with Ecologically Sustainable Development	30-5
30.7	Consequences of Not Proceeding	30-5
30.8	Sustainability of the Proposal	30-6
30.9	Conclusion	30-6
